What did you accomplish during your internship?

I assisted in the planning and execution of an event at the Jasper County Fair which was a public safety day event for the county. I created the promotional RSVP that was sent to all the departments in the county. I also assisted in the ordering of DNA kits to help identify children that have been abducted, run away from home, or gotten lost. I helped law enforcement on various calls including clearing crash scenes and photographing what had happened. This took place during the summer including over two hundred hours of ride alongs on various shifts. This helped me gain a greater understanding of both the job and what is needed to keep the community safe and secure.

How did the internship benefit the student?

I learned many different things about how law enforcement works and gained a deeper understanding for what the personnel in the county and worldwide do to keep people safe. I experienced what it would be like to have a job in that field and it was very valuable to me as I will go into the future.

How did the internship benefit the agency?

The agency benefitted from the internship because the intern was available to help plan the public safety day and was also available to assist when needed on calls if deputies were busy and needed assistance.

How does the internship benefit the community?

The internship benefitted the community because now they have a greater understanding of how law enforcement and safety personnel work in their county to keep them safe and protected from harm. They also gained precious resources to keep their children safe or find them in a quick and timely manner if the worst were to happen.
